|----------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Flipped States             | Based on this data, if fraudulent votes are removed, Trump would have actually won these states:<br><a href="#">Pennsylvania</a> , <a href="#">Michigan</a> , <a href="#">Wisconsin</a> , <a href="#">Nevada</a> , <a href="#">Arizona</a> , <a href="#">Georgia</a> , <a href="#">Minnesota</a> , and thus retained the Presidency. |
| Potentially-Flipped States | It's also possible that Trump may have won additional close-call states if there was additional fraud such as cyber-attacks occurring:<br><a href="#">New Mexico</a> , <a href="#">Virginia</a> , <a href="#">Colorado</a> , <a href="#">New Jersey</a> , <a href="#">New Hampshire</a> .                                            |
| Close Calls                | These states would still have likely been won by Biden, but may have been closer than what was reported: <a href="#">Washington</a> , <a href="#">Oregon</a> , <a href="#">Rhode Island</a> , <a href="#">Connecticut</a> , <a href="#">Hawaii</a> .                                                                                 |

Even though China's CO2 emissions are twice ours, it is the greatest polluter of the Pacific Ocean, pushing the Global Warming apocalypse BS would surely gain points with Kerry, Gore, and our American Marxists, who are pushing Global Warming, in order to castrate our economy.

FauXi is guilty of crimes against Humanity and breaching the Nuremberg Code as well

FauXi and his accomplices must pay heavily for their injustices and evil
